

# H-SERIES

# FILL-RITE®

## DURABLE. RELIABLE. MOBILE. HEAVY-DUTY FUEL TRANSFER PUMP

The Fill-Rite® H-Series fuel transfer pump is designed to provide heavy-duty performance in a compact size. Fueling between 13 and 20 GPM in three available voltage combinations (12V DC, 24V DC, 115V AC), the H-Series is compatible with gasoline, diesel, biodiesel blends up to B20, ethanol blends up to E15, and kerosene. Available in a wide selection of configurations with a manual or automatic nozzle, mechanical or digital meter, and a variety of fuel hose lengths, the H-Series is ideal for mobile and stationary applications that require a durable pump to withstand the elements and the test of time.

### YOUR HIGH-PERFORMANCE MOBILE PARTNER

# HEAVY-DUTY H-SERIES

## OTHER FEATURES & BENEFITS

### • Focused Component Weight Reduction

Preserves expected heavy-duty performance while improving installation ease

### • Telescoping Inlet Metal Suction Pipe\*

Adjustable to over 34 inches in length, allowing for universal installation on a multitude of tank sizes and shapes

### • Intake Strainer Safeguard

Protects the pump by blocking particles created by contamination, extending pump life and performance

\*Not included on SD Models

## STANDARD WARRANTY (MOTOR TO PUMP)

HEAVY-DUTY (FR)

STANDARD-DUTY (SD)

## INDUSTRY APPLICATIONS

### MOBILE FUELING

(Municipalities, Motor Sports, Hunting & Fishing)

### AGRICULTURE

### CONSTRUCTION

(Electrical, Plumbing, Landscaping, Excavating)
